

CALL FOR SPONSORSHIP

IEEE HOST 2017 Sponsorship Opportunities

The **International Symposium on Hardware-Oriented Security and Trust (HOST)** was founded as a venue to create a community for researchers to discuss solutions to the challenge of hardware trust and security. Since its inception in 2008, HOST has steadily grown and has continued to receive high interest from the hardware-oriented security community. Attendance includes representation from the embedded systems community, the microprocessor community, the application-specific integrated circuit (ASIC) design community, and the ASIC test community. Attendees represent academic, industrial, and government organizations.
