

**Arijit Raychowdhury** is currently a Professor in the School of Electrical and Computer Engineering at the Georgia Institute of Technology where he joined in January, 2013. He received his Ph.D. degree in Electrical and Computer Engineering from Purdue University (2007) and his B.E. in Electrical and Telecommunication Engineering from Jadavpur University, India (2001). His industry experience includes five years as a Staff Scientist in the Circuits Research Lab, Intel Corporation, and a year as an Analog Circuit Designer with Texas Instruments Inc. His research interests include low power digital and mixed-signal circuit design, design of power converters, sensors and exploring interactions of circuits with device technologies. Dr. Raychowdhury holds more than 25 U.S. and international patents and has published over 80 articles in journals and refereed conferences. He serves on the Technical Program Committees of DAC, ICCAD, VLSI Conference, and ISQED and has been a guest associate-editor for JETC. He has also taught many short courses and invited tutorials at multiple conferences, workshops and universities. He is the winner of the Intel Labs Technical Contribution Award, 2011; Dimitris N. Chorafas Award for outstanding doctoral research, 2007; the Best Thesis Award, College of Engineering, Purdue University, 2007; Best Paper Awards at the International Symposium on Low Power Electronic Design (ISLPED) 2012, 2006; IEEE Nanotechnology Conference, 2003; SRC Technical Excellence Award, 2005; Intel Foundation Fellowship, 2006; NASA INAC Fellowship, 2004; M.P. Birla Smarak Kosh (SOUTH POINT) Award for Higher Studies, 2002; and the Meissner Fellowship 2002. Dr. Raychowdhury is a Senior Member of the IEEE.
