HOST 2021: IEEE International Symposium on Hardware-Oriented Security and Trust

http://hostsymposium.org

December 12-15, 2021

HOST 2021 Organizing Committee

General Chairs
Saverio Fazzari, Booz Allen Hamilton
Mark Tehranipoor, Univ. of Florida

Program Chairs
Fareena Saqib, UNC Charlotte
Jim Plusquellic, UNM

Vice-Program Chairs
Farimah Farahmandi, Univ. of Florida
Vincent Mooney, Georgia Tech

Finance Chair
Ioannis Savidis, Drexel University

Registration Chair/Vice Finance
Ujjwal Guin, Auburn University

Publicity Chair
Naghmeh Karimi, UMBC

Industrial Liaison
Yousef Iskander, Microsoft
Sohrab Aftabjahni, Intel

Panel Chairs
Rosario Cammarota, Intel
Waleed Khalil, OSU

Tutorial Chair
Sheng Wei, Rutgers University

Hardware Demo Chairs
Adam Kimura, Battelle
Wenjie Che, NMSU

Publications Chair
Mehran Mozaffari Kermani, USF

European Liaison
Giorgio Di Natale, LIRMM

Asia-Pacific Liaison
Xiaowei Li, Chinese Acad. of Sci.

AV Chair
Xiaolin Xu, Northeastern University

Web Chair
Wei Hu, Northwestern Polytechnical Univ.

CONTACT INFORMATION
Sheng Wei
E-mail: sheng.wei@rutgers.edu

CALL FOR TUTORIALS

The IEEE International Symposium on Hardware Oriented Security and Trust (HOST) aims to facilitate the rapid growth of hardware-based security research and development, and to highlight new results in the area of hardware security. HOST 2021 will organize a multi-session (90-minuite or 150-minute each) hardware security tutorial to take place on the first day of the program (December 12, 2021). We invite contributions to the tutorial sessions related to, but not limited to, the following topics:

- Secure Processor Architectures
- System-on-Chip (SoC) Security
- Hardware Obfuscation
- Hardware Trojan Detection and Prevention
- Side Channel Attacks and Mitigation
- Automotive Security
- Design for Security
- IC and PCB Reverse Engineering and Countermeasure
- Hardware Security Primitives (PUFs, TRNGs, etc.)
- Internet-of-things (IoT) Security Analysis and Protection
- Hardware Security Metrics
- Counterfeit Detection and Avoidance
- Manufacturing and Supply-Chain Concerns
- Security Aware Tools and Design-Time Techniques

HOST welcomes tutorials that target a broad audience - for both beginners and professionals in the hardware security and trust field. Hence, tutorials should include a mixture of both introductory and in-depth content. Any prerequisites required by the participants must be clearly specified in the proposal (see submission guidelines below).

COMPENSATION AND REQUIREMENTS
Accepted tutorials must have a minimum of ten registered participants at least ten days before the event or the session may be cancelled. Presenters will be compensated with a percentage of the participant tutorial fees through an honorarium. In the case of multiple presenters for a given tutorial, the honorarium will be equally divided amongst the presenters.

SUBMISSION INSTRUCTIONS
Tutorial proposals should be 3-4 pages in length and must include the following sections:
- Presenter information (name, affiliation, e-mail, etc.)
- Presenters' short bio
- Length of the tutorial (either 90 minutes or 150 minutes)
- Tutorial title
- Tutorial summary and goals (~250 words)
- Tutorial organization (schedule and breakdown of the content)
- Target audience and estimated number of attendees
- Prerequisites or required materials (if any) for the attendees
- Information about past offering of the tutorial (if a version of the tutorial was presented at HOST or other venues in the past)

IMPORTANT DATES
Deadline for Tutorial Proposal Submission: **June 16. 2021**
Notification of Acceptance: **July 13, 2021**
HOST 2021 Tutorial Day: **December 12, 2021**

All tutorial proposals must be submitted to the HOST 2021 EasyChair site:
https://easychair.org/conferences/?conf=ieeehost2021
(Make a new submission and choose the "HOST Tutorial" track)
